DETAILED ACTION

This application is a continuation in part of PCT/JP97//04468, filed December 5, 1997, which claims benefit to foreign application HEI. 8-325763, filed December 5, 1996 in Japan.

Applicants' amendment filed April 30, 2004, has been received and entered. Claims 1 and 22 have been amended. Claims 1, 18, 19, 22 and 23 are pending and currently under examination.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As noted in the previous office action, claim 23 was allowed. Claims 1, 18, 19 and 22 were free of the art of record because the art fails to teach polynucleotide sequences encompassed by the instant claims. Further, the art fails to teach that these polynucleotide sequences correlate to genes which demonstrate an increased expression in the leukocytes of patients suffering from IgA nephropathy. The amendment to the claims have addressed and obviated the basis of the rejections made under 35 U.S.C. 112, second paragraph, as set forth in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
